 Mobile devices cause us to neglect social interactions. You can cut the longer texts off and only use the first 512 Tokens. The reason I say this is because of the rise in mental health conditions including anxiety, depression, and other mental problems brought on by cyberbullying due to phone addiction. In 2020, Malaysia was rated second in Asia for youth cyberbullying. Kant understands the majority of people to be content to follow the guiding institutions of society, such as the Church and the Monarchy, and unable to throw off the yoke of their immaturity due to a lack of resolution to be autonomous. The intellectual and political edifice of Christianity, seemingly impregnable in the Middle Ages, fell in turn to the assaults made on it by humanism, the Renaissance, and the Protestant Reformation. The formative influence for the Enlightenment was not so much content as method. a philosophical movement of the 18th century marked by a rejection of traditional social, religious, and political ideas and an emphasis on rationalism. Similarly, early Americans had faith that a newly expanded print media would spread enlightenment. The idea of society as a social contract, however, contrasted sharply with the realities of actual societies.
